Error message: PCI Bridge Error

Published 03/10/2009

Symptom(s):

```
Error msg:"/hw/node/xtalk/15/pci PCI BRIDGE ERROR"
Error message: PCI Bridge error
Error message: Widget 0xf
```

Fact(s):

```
SGI Origin 350
```

SGI Solution:

```
An O350 containing a PCI riser has a PIC chip on the riser. Widget 0xf on the PIC chip refers to the PCI busses. Remove the PCI cards and ensure the system still boots - if that is successful the insert the PCI cards one at a time to isolate the failure to the card.
```

Cause(s):

```
Faulty PCI card
```
